

CALRAD

28 Series - Decora Wall Jacks

SOLDER AND SOLDERLESS DECORA INSERTS FOR AUDIO AND VIDEO

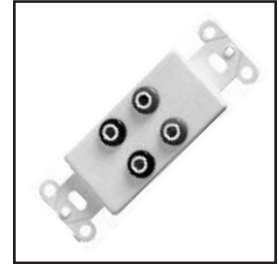

Calrad decora inserts provide a wide variety of configurations for most audio or video applications. We are now offering selected configurations with screw terminals for secure non-solderable wire connections. Connection points are labeled for easy wire identification allowing for easy installation and maintenance. We have also added both single and double HD DB15, DVI-I, HDMI feedthrus.
