

2 POST 45U RACK WITH CAGE NUT RAILS

A strong and sturdy racking solution with strategic grounding capabilities

4 POST 45U CAGE NUT STYLE RAILS
Item #:1940-3-120-45

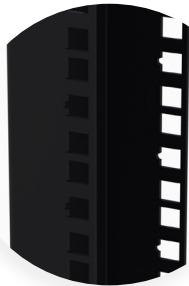

FEATURES

- Cage Nut style mounting rails
- Ships knocked down in one box
- Gangable
- Constructed from cold rolled steel
- Ships Ground
- Made in the USA

ELECTRICAL GROUNDING

The rack features four ¼-20 x 0.5" grounding studs on the inside of the four rails. These studs allow you to ground your equipment directly to the stud or with the use of bus bars, not included. The rack also includes serrated tooth washers to allow the frame to be grounded during the assembly process.

CAGE NUT STYLE RAILS

Cage Nut Style Rails allow universal mounting options for network, security, and other rack mountable equipment

Mounting hardware sold separately

MAXIMIZE STABILITY

Floor mounting holes are available to secure the rack to the floor for maximum security.
