

Punchdown Impact Tool & Blades

110 Blade

66 Blade

Blade Description

- Manufactured from high carbon tool steel, heat treated and precision ground for long life.
- Reversible for seating/cut or seating only. Compatible with industry standard tools.

Description

This is the primary tool for all telecom and data-communications installers. This tool simultaneously seats and trims wire in 110 and 66 style cross connects.

- Spring loaded for fast, low effort wire seating and termination.
- Bayonet style blade retention mechanism is compatible with tools and blades manufactured by Harris, Ideal and others.
- 110, 66 and 630 style interchangeable blades.
- Color coded yellow on the cut side of the tool and conforms to the industry standard.
- Adjustable low and high impact force settings.
- Spare blade storage compartment in the handle.

Application

- Use to terminate and trim wires in 66 and 110 style cross connect blocks.
- Use to terminate and trim wires in 110 & 630 style wall jack modules.

Marking/Packaging

- Available in clamshell or individually boxed.
